PROJECTS

J**ob Hunt:** A job portal website connects job seekers with employers by providing a platform to post and apply for job openings. It includes features like user registration, resume uploads, job search, and application tracking. This system streamlines the hiring process and improves access to employment opportunities. It is created using HTML, CSS, PHP and Bootstrap as framework.

Blockchain-powered Crowdfunding For Education Loans: Developed a decentralized crowdfunding platform that connects students seeking education loans with global investors using blockchain technology. The system ensures transparency, security, and trust by recording transactions on an immutable distributed ledger.
